

# ROLLO

## HOMEMATIC EASE M25T

The Ease M25T battery motor was specially developed for roller blind and twin roller blind applications. Drive with integrated lithium-ion battery and soft start/soft stop technology. Normal mode for quick movement and scene mode for comfortable and even quieter driving. Integrated radio receiver for wireless control with remote control and Homematic IP app.

### TECHNICAL DATA

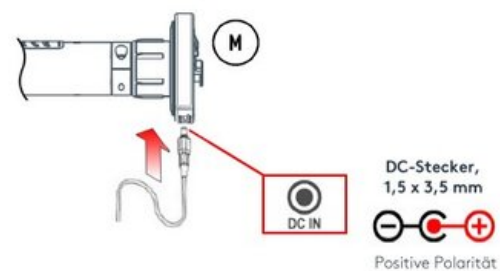

Manufacturer	Hunter Douglas Homematic	Protection class	IP 30
Power supply	11.1 V DC	Protection class	III
Power consumption	1000 mA	Weight	540 g
Torque	0.8 Nm	Radio system	Hunter Douglas Homematic
Revolutions / min	30	Radio frequency	868 MHz
Max. Duty cycle	2 min	Article number	17.0802
Operating temperature	0 ° up to +60 ° C
